

The **MINI-FLO** is one of our smallest portable light sources. The Mini-Flo can be found on film sets lighting nighttime car interiors or mounted on cameras as small Obie lights. Rows of the dimming Mini-Flos are also built into TV anchor desks as soft fill sources.

Each travel kit comes with a pair of 9-inch Mini-Flo Single Systems, which take Kino Flo True Match™ daylight and tungsten balanced lamps, and accessories.

Ballast and Fixture Specifications

Fixture	Part Number	Dimensions	Weight w/Lamps	Lamp	Lamp Type
9-inch Fixture	CFX-091	10.25" x 2.75" x 2.5" / 260mm x 70mm x 64mm	8oz / 227g	1	F6/T5
